Directions for use

Degrease the surface with MT_{CLEANER} (D100501) and let dry. Apply the tape. Position the mounting piece and press hard. After 20 minutes 35% of the adhesive strength. 100% adhesive strength after 72 hours. Plastics that are difficult to glue, first treat with MT_{PRIMER} (I 100001). Global warming accelerates the adhesion.
