

HANDPOMP 50 ML

- Is smooth in the hand.
- An extended handle: spraying the product without much effort.
- Releaser: the product will not flow out after spraying.
- Reinforced pressure point: ensures uniform pressure on the cartridges.

Applications:

- For all 2-component cartridges of 50 ml.

Instructions for use

Press the releaser in and pull the push rod backwards.

Turn the black hull 90° and insert the 2 component cartridges in the hull.

Turn the hull back close.

Squeeze by pushing the trigger.

To stop spraying, release the trigger and push the releaser on the side of the pump.
