

# MULTI-TEF

- High-quality THIN PTFE-based lubricant.
- Durable thin lubricating film for precision work.
- Easy-to-use spray head.
- Very low friction coefficient.
- Free from silicones.
- Not harmful to synthetics, metals or rubber.
- Long-lasting, does not dry out or freeze.

## Applications:

Ideal for lubricating precision tools and any moving parts, including chains, bearings, doors, sliding windows, switches, conveyor belts, gears, cables, locks, packing machines, looms, saws, wire rods, mounting rubbers, cranes,...

<u>Art.No.</u>	<u>Product</u>	<u>Content</u>
E100051	MULTI-TEF	400 ml

## TECHNICAL SPECS

Color:	Colorless
Temperature resistant:	-50°C to +250°C
PH	Neutral
Contains no chlorinated substances.	

## Instructions for use:

Shake well before use. After about 1 minute you get the best lubricating effect.  
(Evaporation of the solvent)
