

WAX

- Colorless film that protects against corrosion and dirt.
- Good adhesion.
- Water repellent.
- Saltwater resistant.
- Ideal for hard-to-reach places by well creep- and penetration power.
- Doesn't corrode rubber or plastic.
- For hollow spaces, an extension hose with 3-way nebulizer can be used.
- Silicone free.

Applications:

- Protecting crevices, hollow spaces, large areas machines and tools.
- Can be used preventively as well as for follow-up treatment.
- Doesn't give salt the chance to instantly eat and touch the material.
